3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training for appointment to the Royal Indian Navy. **PUBLIC SERVICE COMMISSION (INDIA).****NOTICE.**

Simla, the 19th May 1936.

A competitive examination will be held in Delhi on Monday, 19th October 1936, and subsequent days, for entry to the Indian Military Academy, Dehra Dun, in the term beginning on the 1st February 1937, and also for entry to the Royal Indian Navy.

2. The examination will be a combined one for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Navy. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both he will ordinarily be assigned to the one for which he expressed a preference in his application; but the Government of India reserve power to assign him to either.

3. At this examination 15 vacancies will be offered for entry to the Indian Military Academy. The Governor-General in Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineer Branch of the Royal Indian Navy.

4. The examination will be the same for all arms of the Indian Army, i.e., Cavalry, Artillery Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent. of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

*The fact that an application form has been supplied, on whatever date, will not be accepted as an excuse for the late submission of an application. Candidates who delay their requests for forms until a late date will do so at their own risk.*

6. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate

desires an acknowledgment, he should send his application "registered, acknowledgment due."

**DEPARTMENT OF INDUSTRIES AND LABOUR.****NOTIFICATION.**

Simla, the 23rd May 1936.

No. M.-955.—In exercise of the powers conferred by sections 29 and 31A of the Indian Mines Act, 1923 (IV of 1923), as amended by the Indian Mines (Amendment) Act, 1936 (XI of 1936), the Governor-General in Council is pleased to make the following temporary regulations, having satisfied himself that for the prevention of apprehended danger or the speedy remedy of conditions likely to cause danger it is necessary in making these regulations to dispense with the delay that would result from their previous publication and reference to Mining Boards :—

**Temporary Regulations for Coal Mines.**

1. (1) These regulations may be called the Coal Mines (Temporary) Regulations, 1936.

(2) They shall apply only in respect of coal mines.

2. In these regulations, unless there is anything repugnant in the subject or context,—

(a) "the principal Regulations" mean the Indian Coal Mines Regulations, 1926;

(b) "the District Magistrate", in relation to any mine, means the District Magistrate as defined in the principal Regulations.

3. (1) The owner, agent or manager of every mine shall keep in the office at the mine a plan showing the system of ventilation in the mine, and, in particular, the general direction of the air-currents, the points where the quantity of air is measured and the principal devices for the regulation and distribution of the air. So far as practicable, the intake airways shall be coloured blue and the return airways red.

(2) The positions of any underground ambulance stations and telephones shall be indicated on the plan.

(3) The Code of signs set out in Schedule I to these Regulations shall be utilised in plans made under this regulation.

(4) Regulations 15 and 16 of the principal Regulations shall apply to any plan made under this regulation as if such plan had been prepared under Chapter II of the principal Regulations.

4. (1) All structures and supports at the tops of shafts and the covering of all shafts sealed off or covered for ventilation purposes, shall be made of non-inflammable material:

Provided that this sub-regulation shall not apply to beams for the support of cage keps or of platforms or to wooden headgears if such beams and headgears were in use on the date on which these regulations come into force.

(2) All air-crossings in main intake or main return airways and all ventilation or separation doors in any fan house or fan drift and in the vicinity of shaft bottoms or air-crossings in main intake or main return airways shall be constructed of non-inflammable material and shall be designed, as far as practicable, to prevent leakage.

(3) No timber or other inflammable material shall be used in the construction of or in connection with any underground engine-house or electrical sub-station, switch house or motor room.

(4) This regulation shall come into operation on the first day of December 1936. The Chief Inspector may in the case of any particular mine, where he is satisfied that compliance with the provisions of this regulation is not reasonably possible by the date aforesaid, direct that this regulation shall not apply to such mine for a further period not exceeding six months from that day.

5. No oil, grease, canvas, or other highly inflammable material shall be stored underground in any mine except in a fire-proof receptacle or chamber.

6. Adequate precautions shall be taken at every mine to prevent the deposition of boiler ashes or the residue from the manufacture of coke in any coal quarry, or exposed outcrop of coal or on any broken surface caused by the extraction of coal.

7. (1) No person shall light a fire or permit a fire to be lighted in any underground part of a mine:

Provided that nothing in this sub-regulation shall apply to the use of blow lamps or electric repairing apparatus if permitted by a special written order granted by the manager of the mine. The order shall specify the person to be in charge of the blow lamp or apparatus and shall require such person to bring it back to the surface when no longer required.

(2) No person shall light a fire or permit a fire to be lighted within a distance of 20 feet of the top of any shaft except in accordance with a written order granted by the manager of the mine and only for a special purpose specified in such order.

(3) All such orders shall be recorded in a paged book kept in the office of the mine.

8. Adequate means of extinguishing fire shall be provided at any part of a mine where timber, grease or other inflammable material is stored and at all insets where timber is used for the construction of the staging and at every pit-head, engine-room and electrical apparatus room.

9. (1) No coal shall be extracted from any spot which lies vertically below and within 50 feet of—

- (a) any part of the bed of any river, or
- (b) any spot lying within a horizontal distance of 50 feet from either bank of the river.

(2) No coal shall be extracted from any spot which lies vertically below—

- (a) any part of the bed of any river, or
- (b) any spot lying within a horizontal distance of 50 feet from either bank of the river,

except with the written permission of the Chief Inspector and subject to such conditions as he may specify.

(3) For the purposes of this regulation, where sand or alluvium are lying in the course of a river, the bed of the river at that point shall be deemed to coincide with the surface of the hard strata underlying such sand or alluvium.

10. No excavation shall be done in any part of a seam lying under any part of another seam which is on fire or is believed to be on fire or which is connected by a goaf or broken strata to any fire except by a method which will maintain the strata between the seams in situ and intact.

11. (1) On the appearance in any part of a mine of smoke or other sign indicating that a fire has or may have broken out all workmen other than those whose presence in the mine is deemed necessary for dealing with the emergency shall be immediately withdrawn from the mine. No workmen, other than the men required for dealing with or damming off the fire, shall be re-admitted until either the fire has been extinguished or the part in which it exists has been effectively dammed off and an examination has been made by the manager and the competent person appointed under regulation 72 of the principal Regulations and the mine has been reported to be safe. Every such report shall be recorded without delay in a paged book, which shall be kept at the mine for the purpose and shall be dated and signed by the manager and the competent person who made the inspection:

Provided that where a mine is mechanically ventilated, this regulation shall apply only to the ventilating district or districts that may be affected.

(2) Locked safety lamps or electric torches of a type approved by the Chief Inspector shall be exclusively used in the work of dealing with or damming off an underground fire:

Provided that where, in the opinion of the manager, it is necessary to take immediate steps to deal with an outbreak of fire, the provisions of this sub-regulation shall be deemed to have been complied with if the workmen engaged in dealing with the fire are provided with safety lamps or electric torches as quickly as is reasonably practicable.

(3) During the work of dealing with or damming off an underground fire a cage or cages containing small birds or mice shall be kept at all places in which persons may be in danger from noxious gases.

12. When smoke or other indication of outbreak of fire or a dangerous influx of noxious gases occurs in or about a mine, the owner, agent or manager of the mine shall forthwith inform the Inspector by telephone or telegraph, and shall also, within twenty-four hours of such occurrence, send notice thereof in the form contained in Schedule II to these Regulations to the District Magistrate, or to the Subdivisional Magistrate, who shall forward it to the Chief Inspector.

13. (1) Locked safety lamps or electric torches of a type approved by the Chief Inspector shall be exclusively used in any ventilating district of a mine in which there is an underground fire whether such fire is sealed off by stoppings or not :

Provided that the Chief Inspector may, in the case of any mine, grant exemption from this regulation, if, in his opinion, the use of safety lamps or electric torches in such mine is not necessary.

(2) This regulation shall not come into force till the 1st day of July 1936.

14. In any ventilating district of a mine which is not naturally wet throughout and in which there is an underground fire, whether sealed off or not, the following precautions with respect to danger from dry coal dust shall be taken :—

- (a) All haulage and tramming roads shall be systematically kept clear of accumulations of dry coal dust.
- (b) All such roads shall be systematically treated with water or incombustible dust in such a manner as to prevent an explosion from being initiated or

propagated by coal dust. If incombustible dust is used for the purpose, it shall be of a kind which is not likely to be injurious to the health of workmen.

15. In any working mine in which a fire is known or is believed to exist—

- (a) adequate precautions shall be taken to prevent the passage of air from the mine through any goaf or broken strata connected with the fire ; and
- (b) no work shall be done in any part of the mine which is not effectively sealed off from any such goaf or broken strata.

16. Inspections—

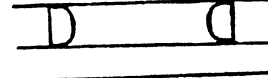

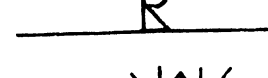

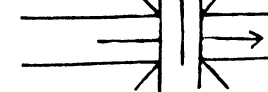

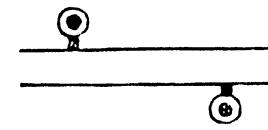

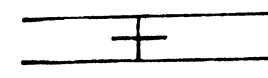

- (a) under regulation 70 of the principal Regulations in the region of an underground fire, or
- (b) of any stoppings made to control a fire, or
- (c) under regulation 72 of the principal Regulations where the danger arises from fire or noxious gases,

shall be made with a locked safety lamp of the flame-type and a cage containing mice or small birds or other means of detecting carbon monoxide gas approved by the Chief Inspector.

## PART VI

**Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.**

### GOVERNMENT OF INDIA.

#### Legislative Department.

The following Bill was introduced in the Council of State on the 17th April, 1936 :—

C. OF S. BILL No. 1 OF 1936.

#### *A Bill to control the Coastal Traffic of India.*

WHEREAS it is expedient to encourage the development of an Indian Mercantile Marine ;

AND WHEREAS for this purpose it is expedient to control unfair competition in the Coastal Traffic of India ;

It is hereby enacted as follows :—

1. (1) This Act may be called the Control of Coastal Traffic of India Act, 1936.

(2) It extends to the whole of the coastal traffic of British India and of the continent of India.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

2. When the Governor General in Council is satisfied from a complaint, report or otherwise that unfair competition exists in the coastal traffic of British India or of the continent of India, by the lowering of the usual rates of fare or freight or by the grant of rebates or other concessions in any way whatsoever, it shall, subject to the provisions of the Government of India Act, be lawful for him to prescribe, from time to time, by rules published in the Gazette of India, the minimum rates of fare or freight between any ports in India or to prohibit by notification published in the said Gazette the grant of any rebate or concession which in his opinion amounts to unfair competition.

3. Any person who in the opinion of the Governor General in Council contravenes any such rule or prohibition shall be punished with fine which may extend to Rs. 10,000 and shall also be liable to be debarred from taking any ship into any port in India under the control of the Government of India or of any Provincial Government for such period or under such conditions as the Governor General in Council may direct.

*Explanation.*—A person shall include any company or association or body of individuals whether incorporated or not.

4. The Governor General in Council may, by notification, make rules for carrying out the purposes of this Act. In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely :—

- (a) for the procedure for complaint against or report about unfair competition,
- (b) for enquiry into such complaint or report,
- (c) for the imposition of the penalty of refusal of entry of any ship into any port and for the enforcement thereof.

#### STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to remove a possible impediment to the growth and development of Indian Mercantile Marine. There is no question of any discrimination between British and Indian shipping. Past experience, however, shows that a well-established powerful company engaged in coastal traffic can easily put a new venture out of action by unfair competition, e.g., rate-cutting, grant of rebates, etc. The fear of unfair competition deters Indian capital being invested in coastal shipping. If the Governor General in Council be given power to prevent such competition, the fear will be largely allayed and a new line of commercial activity may be opened out to Indians. By this Bill, power is given to the Governor General in Council when he is satisfied that unfair competition exists, to fix minimum rates of fare and freight or to prohibit the grant of rebates or other concessions which are calculated to reduce such minimum rates. Contravention of any rule prescribed by the Governor General in Council or any direction given by him with regard to the grant of concessions is made punishable with fine or refusal of entry to an Indian port.

The following Bill was introduced in the Legislative Assembly on the 17th April, 1936 :-

L. A. BILL No. 18 OF 1936.

*A bill further to amend the Code of Criminal Procedure, 1898.*

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898 ; It is hereby enacted as follows :—

Short title,  
extent and  
commence-  
ment.

1. (1) This Act may be called the Code of Criminal Procedure (Amendment) Act, 1936.

(2) It shall apply to the whole of British India.

(3) It will come into force on such day as the Governor General in Council directs.

Amendment of  
section 388,  
Act V of 1898.

2. In sub-section (1) of section 388 of the Code of Criminal Procedure, 1898, after the word "only" a comma and the words, "for imprisonment till the rising of the Court and fine" shall be inserted.

## STATEMENT OF OBJECTS AND REASONS.

Section 388 of the Criminal Procedure Code was amended by Criminal Procedure Code (Second Amendment) Act, 37 of 1923. By this amendment Criminal Courts were empowered to allow time and to make instalments for the payment of fine by an accused person who is sentenced to fine only. There are several sections in the Indian Penal Code under which a sentence of imprisonment must be awarded, but in practice there arise cases sometimes, in which the Court thinks only a sentence of fine is called for. In such a case the Court awards sentence of imprisonment till the rising of the Court only to comply with the provisions of law. A sentence of fine is added and imprisonment in default is prescribed. Section 388, Criminal Procedure Code, does not enable the Court to give time or to make instalments of fine in such a case. The result is that the very object with which the Court awarded imprisonment until the rising of the Court is frustrated. The accused would not possibly expect or know what the sentence would be and would not come to the Court ready to pay the fine, he must therefore be sent to the jail until the fine is paid by his relatives. This causes great hardship to accused persons, specially when they are otherwise respectable. This Bill is presented to alleviate this hardship.

Short title,  
extent and  
commence-  
ment.

1. (1) This Act may be called the Muslim Dissolution of Marriage Act, 1936 .

3. That her husband neglects or refuses to maintain her and she has no means to maintain herself ;

conversion.

5. The conversion of a married Muslim woman to a faith other than Islam shall not by itself operate to dissolve her marriage.

\*The Governor General has been pleased to accord the sanction required by section 67 (2) (b) of the Government of India Act.

## Trial of suits.

6. (a) Subject to the provisions laid down in the V of 1908. Code of Civil Procedure, 1908, regarding the trial of suits, a suit for the dissolution of marriage by a married Muslim woman shall be filed in the proper Court, provided that the presiding officer of that Court is a Muslim.

(b) If the presiding officer of the Court mentioned in (a) be not a Muslim, then such a suit shall be filed in the Court of the District Judge, who may try it himself if he is Muslim—or send it for trial to any Muslim Judicial Officer in his District without any consideration for pecuniary or territorial jurisdiction.

(c) If the District Judge is not a Muslim himself and no Judicial Officer as mentioned in (b) above is available, then the District Judge shall send the case for trial to a Muslim Judicial Officer available in the nearest District.

(d) In case of transfer of a Muslim Judicial officer pending the trial of suit under this Act and his substitution by a non-Muslim Officer, the record of the case shall be sent back to the District Judge of the District where the suit was instituted and the said District Judge shall dispose of the case in accordance with (b) and (c) mentioned above.

(e) Appeals from the decision of the trial Court shall lie to the High Court and shall be heard and decided by a Muslim Judge of that Court.

## STATEMENT OF OBJECTS AND REASONS.

There is no proviso in the Hanafi Code of Muslim Law enabling a married Muslim woman to obtain a decree from the Courts dissolving her marriage in case the husband neglects to maintain her, makes her life miserable by deserting or persistently maltreating her or absconds leaving her unprovided for and under certain other circumstances. The absence of such a provision has entailed unspeakable misery to innumerable Muslim women in British India. The Hanafi Jurists however have clearly laid down that in cases in which the application of Hanafi Law causes hardship, it is permissible to apply the provisions of the "Maliki, Shafi'i or Hambali Law". Acting on this principle the *Ulemas* have issued *fatwas* to the effect that in cases enumerated in clause 3, Part A of this Bill, a married Muslim woman may obtain a decree dissolving her marriage. A lucid exposition of this principle can be found in the book called "Heelat-un-Najeza" published by Maulana Ashraf Ali Sahib who has made an exhaustive study of the provisions of Maliki Law which under the circumstances prevailing in India may be applied to such cases. This has been approved by a large number of *Ulemas* who have put their seals of approval on the book.

As the Courts are sure to hesitate to apply the Maliki Law to the case of a Muslim woman, legislation recognizing and enforcing the above-mentioned principle is called for in order to relieve the sufferings of countless Muslim women.

As to cases covered by clause 3, Part B Hanafi Law makes the necessary provision for granting the appropriate relief.

Now remains the question of the personnel of the Courts giving decrees in dissolution of marriage cases. The Muslim Law requires that the decree should be passed by a Qazi who must be a "Mussalman". Under the present circumstances this is not possible, but it is possible to get such a suit decided by a Muslim presiding officer. To attain this object clause 6 has been added, which gives the available facilities to the litigants to get the dispute decided by a Muslim officer.

One more point remains in connection with the dissolution of marriages. It is this: the Courts in British India have held in a number of cases that the apostasy of a married Muslim woman *ipso facto* dissolves her marriage. This view has been repeatedly challenged at the bar, but the Courts continue to stick to precedents created by rulings based on an erroneous view of the Muslim Law. The *Ulemas* have issued *fatwas* supporting non-dissolution of marriage by reason of the wife's apostasy. The Muslim community has, again and again, given expression to its supreme dissatisfaction with the view held by the Courts. Any number of articles have been appearing in the press demanding legislation to rectify the mistake committed by the Courts, hence clause 5 is proposed to be incorporated in this Bill. Thus by this Bill the whole Law relating to dissolution of marriages is brought at one place and consolidated in the hope that it would supply a very longfelt want of the Muslim community in India.

In the end it may also be made clear that the procedure and conditions as laid down in this Bill are expected to satisfy all the schools of Muslim thought and so this Bill is made applicable to all Mussalmans residing in British India.

L. A. BILL NO. 21 OF 1936.

*A Bill to amend the Child Marriage Restraint Act, 1929.*

WHEREAS it is expedient to amend the Child Marriage Restraint Act, 1929; It is hereby enacted as follows:— XIX of 1929.

Short title,  
extent and  
commencement.

1. (1) This Act may be called the Child Marriage Restraint (Amendment) Act, 1936.

(2) It extends to the whole of British India including British Baluchistan and the Sonthal Parganas.

(3) It shall come into force on such day as the Governor General in Council directs.

Amendment of  
section 1, Act  
XIX of 1929.

2. After sub-section (3) of section 1 of the Child Marriage Restraint Act, 1929, the following new sub-section shall be inserted, namely:— XIX of 1929.

“(4) The provisions of this Act shall apply also to any offence committed under this Act by any British subject within the territories of any Native Prince or Chief in India and he shall be dealt with according to the provisions of this Act in British India in the same manner as if such act had been committed in British India.”

\* The Governor General has been pleased to accord the sanction required by section 67 (2) (b) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

There is no law making British subjects amenable to the provisions of the Child Marriage Restraint Act if they commit offences under the Act in the territories of any Native Prince or Chief in India.

In practice it has been observed that the provisions of the Sarda Act are being evaded and abused by the British subjects by their hopping over the borders of the British territory and committing offences under this Act by performing child marriages in contravention of the Act in Native States and returning to British India to enjoy immunity from the punishment provided by the Act.

If a provision such as proposed by this Bill is not enacted the provisions of the Child Marriage Restraint Act will be infructuous.

Cases of such an abuse are not rare and it is high time that they should be provided against.

Sections 3 and 4 of the Penal Code do not cover offences when committed under this Act out of British India, to be made punishable in British India.

Section 4 applies to the provisions of the Penal Code only to the offences committed by any Native Indian subject of His Majesty in any place without and beyond British India, and there is no law passed by the Governor General of India in Council, as required by section 3 of the Penal Code for trying in British India an offence under the Child Marriage Restraint Act when committed beyond the limits of the British territories.

Thus it is expedient and necessary to amend this Act as proposed by this Bill.

The following Bill\* was introduced in the Legislative Assembly on the 17th April, 1936:—

L. A. BILL No. 23 OF 1936.

*A Bill further to amend the Legal Practitioners Act, 1879.*

WHEREAS it is expedient further to amend the Legal Practitioners Act, 1879; It is hereby enacted as follows:—

- |   |   |                |
|---|---|----------------|
| Short title.                                | 1. This Act may be called the Legal Practitioners (Amendment) Act, 1936.  |                |
| Amendment of section 13, Act XVIII of 1879. | 2. In section 13 of the Legal Practitioners Act, 1879,  | XVIII of 1879. |
|   | (i) in clause (f), for the words "for any other reasonable cause" the words "who is guilty of any other misconduct" shall be substituted, and |                |
|   | (ii) after clause (f) the following shall be added as <i>Explanation</i> , namely:—   |                |

*"Explanation.*—Entering into any trade or business or accepting any part-time service or employment is not misconduct."

\*The Governor General has been pleased to accord the sanction required by section 7 (2) (i) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

In the Letters Patents of the various High Courts it was provided that the High Courts could take disciplinary action against advocates or pleaders practising in such Courts for "any reasonable cause". But by the Bar Councils Act XXXVIII of 1926 this provision of the Letters Patents has been modified and under section 10 of the said Act the High Courts to which the Act applies can now take disciplinary action against an advocate only for "professional or other misconduct". It is desirable that the Legal Practitioners Act XVIII of 1879 should also be brought into line with the Bar Councils Act XXXVIII of 1926. Section 1 of this Bill, therefore, provides that in clause (f) of section 13 of the said Act XVIII of 1879 the words "who is guilty of any other misconduct" shall be substituted for the words "for any other reasonable cause".

Certain recent Judicial pronouncements (*e. g.*, of the Patna High Court in the case of Shyamapada De, pleader, reported in Volume XVI of the Patna Law Times for 1935 at page 781 and of the Chief Court of Oudh in the case of Pandit Har Prasad Sand, Advocate, reported in Part 29 of the Oudh Weekly Notes for 1935 at page 1029) have cast a doubt upon the rights of Legal Practitioners to enter into any trade or business and for the matter of that to accept a part-time service or employment. Legal Practitioners in India perform also the functions which in England are performed by Solicitors. There is no restriction on the rights of solicitors to enter into any trade or business or to accept a part-time service or employment.

There is, therefore, no reason why such restrictions should be imposed upon the Legal Practitioners in India. Moreover, times have considerably changed and the struggle in the profession is becoming keener and keener every day. It is therefore in the interest of the morale of the profession itself that Legal Practitioners should be permitted to implement their income by straightforward and honest means. This Bill, therefore, further provides for the addition of an explanation after clause (f) of section 13 of the principal Act to the effect that it is not misconduct for a Legal Practitioner to enter into a trade or business or to accept a part-time service or employment.

*A Bill to amend the Child Marriage Restraint Act, 1929.*

WHEREAS it is expedient to amend the Child Marriage XIX of Restraint Act, 1929; It is hereby enacted as follows:— 1929.

Short title,  
extent and  
commencement.

1. (1) This Act may be called the Child Marriage Restraint (Amendment) Act, 1936.

(2) It extends to the whole of British India including British Baluchistan and the Sonthal Parganas.

(3) It shall come into force on the 1st of April, 1935.

1, Act XIX

2. In sub-section (2) of section 1 of the Child Marriage XIX of Restraint Act, 1929, after the words "Sonthal Parganas" 1929. the existing full-stop shall be deleted and the following words shall be added, namely:—

"but it shall not apply to Musalmans".

\*The Governor General has been pleased to accord the sanction required by section 67(2)(b) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

The Child Marriage Restraint Act, XIX of 1929, came into force in April 1930, but as matter of practice it has remained a dead letter specially amongst Muslims. The Indian Law contains two provisions which can be effective in restraining child marriages—one is contained in section 376 of the Indian Penal Code which prohibits consummation with a girl under 14 years of age and the other is contained in the Child Marriage Restraint Act. But what is the restriction contained in the latter Act? It is not a restriction on consummation, but on solemnization of marriage alone. Thus illicit intercourse after the age of 14 with the consent of an unmarried girl is not a crime, but solemn marriage even without consummation is an offence. This is an anomaly. Again the restriction under the latter Act is enforced by the imposition of fine which may extend to Rs. 100 but the non-payment of which cannot be substituted by the infliction of imprisonment. It cannot invalidate the marriage. The Government itself cannot take notice of its breach, except when moved by outsiders. It is probably for this reason, that nobody has ever taken any interest in its observance. It serves no useful purpose except that its existence on the Statute-book gives powers of prosecution in the hands of strangers who are likely to abuse them, contains a penalty which is ineffectual and serves only to irritate the public specially the Muslims, and engenders a feeling of violation of law in the minds of law-abiding citizens. It is thus necessary that it must be repealed at least so far as Muslims are concerned.

L. A. BILL No. 25 OF 1936.

*A Bill to declare that properties of a Muslim dying intestate and without any heir devolve upon the Muslim Community.*

WHEREAS doubts have arisen whether properties of an intestate owner dying without any heir should devolve upon the Muslim Community or be escheated to the Crown;

AND WHEREAS it is expedient to resolve such doubts;

It is hereby enacted as follows:—

Short title,  
application  
and extent.

1. (1) This Act may be called the Muslim Intestate Succession Act, 1936.

(2) It shall apply to the estate both moveable and immoveable of a Muslim, subject to the Muslim law of succession, dying intestate without any heir, and shall extend to the whole of British India.

Devolution of  
intestate  
estate.

2. Notwithstanding any law or custom to the contrary, the estate of a Muslim, subject to the Muslim law of succession, dying intestate without any heir shall devolve on the Muslim Community and shall not escheat to the Crown.

\*The Governor General has been pleased to accord the sanction required by section 67(2) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to provide that the estate of an intestate Muslim, subject to the Muslim law, dying without any heir shall devolve on the Muslim Community in accordance with the *Shariat* in preference to its escheating to the Crown.

This rule of common law is inapplicable to Muslims who are subject to their own law which provides for such a contingency.

Section 112 of the Government of India Act provides:—

“The High Courts at Calcutta, Madras and Bombay in the exercise of their original jurisdiction in suits against inhabitants of Calcutta, Madras or Bombay, as the case may be, shall in matters of inheritance and succession to lands, rents and goods, and in matters of contract and dealing between party and party, when both parties are subject to the same personal law, or custom having the force of law, decide according to that personal law or custom, and when the parties are subject to different personal laws or customs having the force of law, decide according to the law or custom to which the defendant is subject.”

The effect of this section is that in matters of inheritance and succession to both moveable and immoveable properties, the law to be administered to the Muslims is their personal law which in this respect has not been altered or established by any legislative enactment. The pure rule of Muslim law is that the property of an intestate and heirless Muslim on his death devolves upon the Muslim Community on whose behalf the *Baitul-mal*, if existing in any locality, may receive it, or which may make any other arrangements for the custody, maintenance and expenditure of such properties. L. A. BILL NO. 26 OF 1936.

*A Bill to remove certain disabilities in respect of the power of transfer or of will by a member of a joint Hindu family.*

WHEREAS it is expedient to remove disabilities in respect of the power of transfer and of will by a coparcener of his share of the joint Hindu family property ; It is hereby enacted as follows :—

Short title  
and extent.

1. (1) This Act may be called the Hindu Disposal of Property Act of 1936.

(2) It extends to the whole of British India.

A coparcener  
to have a right  
to make a gift  
or will.

2. Notwithstanding any provision, or interpretation of Hindu Law, custom or usage to the contrary, any coparcener of a joint Hindu family may transfer by sale, mortgage, gift or otherwise or may make a will in favour of any body, of his share of the joint family property.

*Explanations.*

- (i) In case of transfer, the share in the joint family property of the transferer will be that which he would get if partition had taken place at the time of the transfer.
- (ii) In case of a will the share of the testator in the joint family property will be that which he would have got (if alive) had partition taken place at the time of his death.

---

\*The Governor General has been pleased to accord the sanction required by section 67 (2) (b) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

With the impact of new ideas of rights of individuals the joint Hindu family system is working great hardship in more ways than one. This is an attempt to rectify it to some extent. A coparcener often finds that he is unable to make any provision for his most near and dear ones to cover his accidental death, when those, whom he would most like to profit by his property, are left at the absolute mercy of others. He cannot also make a transfer and thus has very restricted credit.

The Bill is intended to enable a coparcener to transfer or will away his share of the property before having recourse to actual partition.

*A Bill to control the Coastal Traffic of India.*

WHEREAS it is expedient to encourage the development of an Indian Mercantile Marine ;

AND WHEREAS for this purpose it is expedient to control unfair competition in the Coastal Traffic of India ;

It is hereby enacted as follows :—

Short title,  
extent and  
commencement.

1. (1) This Act may be called the Control of Coastal Traffic of India Act, 1936.

(2) It extends to the whole of the coastal traffic of British India and of the continent of India.

(3) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

Measures to  
check unfair  
competition.

2. When the Governor General in Council is satisfied from a complaint, report or otherwise that unfair competition exists in the coastal traffic of British India or of the continent of India, by the lowering of the usual rates of fare or freight or by the grant of rebates or other concessions in any way whatsoever, it shall, subject to the provisions of the Government of India Act, be lawful for him to prescribe, from time to time, by rules published in the Gazette of India, the minimum rates of fare or freight between any ports in India or to prohibit by notification published in the said Gazette the grant of any rebate or concession which in his opinion amounts to unfair competition.

Penalties.

3. Any person who in the opinion of the Governor General in Council contravenes any such rule or prohibition shall be punished with fine which may extend to Rs. 10,000, and shall also be liable to be debarred from taking any ship into any port in India under the control of the Government of India or of any Provincial Government for such period or under such conditions as the Governor General in Council may direct.

*Explanation.*—A person shall include any company or association or body of individuals whether incorporated or not.

Power to  
make rules.

4. The Governor General in Council may, by notification, make rules for carrying out the purposes of this Act. In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely :—

- (a) for the procedure for complaint against or report about unfair competition ;
- (b) for enquiry into such complaint or report ;
- (c) for the imposition of the penalty of refusal of entry of any ship into any port and for the enforcement thereof.

---

**STATEMENT OF OBJECTS AND REASONS.**

This Bill is intended to remove a possible impediment to the growth and development of the Indian Mercantile Marine. There is no question of any discrimination between British and Indian shipping. Past experience, however, shows that a well established powerful company engaged in coastal traffic can easily put a new venture out of action by unfair competition, e.g., rate-cutting, grant of rebates, etc. The fear of unfair competition deters Indian capital being invested in coastal shipping. If the Governor General in Council be given power to prevent such competition, the fear will be largely allayed and a new line of commercial activity may be opened out to Indians. By this Bill, power is given to the Governor General in Council, when he is satisfied that unfair competition exists, to fix minimum rates of fare and freight or to prohibit the grant of rebates or other concessions which are calculated to reduce such minimum rates. Contravention of any rule prescribed by the Governor General in Council or any direction given by him with regard to the grant of concessions is made punishable with fine or refusal of entry to an Indian port.

Short title,

ment.

1. (1) This Act may be called the Indian Arms (Amendment) Act, 1936.
- (2) It extends to the whole of British India.
- (3) It shall come into force on such day as the Governor General in Council may by notification appoint.

Amendment of  
section 5, Act  
XI of 1878.

2. In section 5 of the Indian Arms Act, 1878,— XI of 1878.
  - (a) after the words "any arms," occurring in line 2, the words "except Kirpans" shall be inserted; and
  - (b) the following proviso shall be added at the end, namely :—

"Provided no licence shall be required by Sikhs both "Kesadharis and Sahijdharis" for possessing or carrying Kirpans of any size."

\*The Governor General has been pleased to accord the sanction required by section 67 (2) (b) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to safeguard the interests of Sikhs in observing the dictates of their religion in the matter of possessing or carrying Kirpans, and to make the law in connection therewith uniform in the whole of British India. At present the rules made under the Act, in different provinces on this point, are divergent and conflicting, making it penal in one province to carry or possess this religious symbol of a particular size or form what is recognized as perfectly valid and legitimate in another. A Sikh and his religion are the same in any part of India. The symbol of his religion cannot change with the place, and to enforce such a change is active interference with religion. There have been many instances when a Sikh has been deprived of this mark of his religion and heavily sentenced for observing it, on crossing the boundary of one province into that of another. Nor is differential treatment of the same person in different parts of his country justified by the local conditions. A Sikh is as good a citizen in one province as in another. Sikhs are spread over the whole of the country and freely move about from one end of it to another, being actively engaged in all walks of life and in all professions and crafts. In these circumstances it is necessary that the amendments proposed by this Bill be made into law. There are two kinds of Sikhs in India, one who wear hair on the head and keep some emblems, and the other are Sikhs by faith called "Sahijdharis" who are numerous in Sind. This Bill is intended to apply to both classes.

Short title and application.

1. (1) This Act may be called the Hindu Widows' Maintenance Act, 1936.

(2) It applies to those parts of British India where the Mitakshara school prevails.

Maintenance for a widow in a joint Hindu family.

2. A widow of a deceased coparcener in a joint Hindu family not having any son shall be entitled to get as maintenance a life estate in the share which her husband, if alive, would have got on partition in the joint family property, such widow being further entitled to demand for her maintenance a partition in the same manner in which her husband, if alive, would have been entitled to.

\*The Governor General has been pleased to accord the sanction required by section 67 (2) (b) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

The lot of widows of coparceners in joint Hindu families governed by Mitakshara Law is generally a pitiable one. No doubt according to the existing law such widows are entitled to maintenance up to the amount of the annual income of the share to which her husband would have been entitled on partition, if alive. But in practice the amount of maintenance awarded by Courts is generally much below such amount. Besides the widow's right is held to be liable to be defeated by a transfer of the joint family property to a *bona fide* purchaser for value without notice of the widow's claim for maintenance. It is also held to be liable to be defeated by a transfer to a purchaser for value even with notice of the claim unless the transfer is made with the intention of defeating the widow's right and the purchaser had notice of such intention. This Bill is therefore brought to ensure such widows a right to maintenance which is not dependent on the mercy of her deceased husband's coparceners and the extent of which is unaffected by the whims of the Judge.

## GOVERNMENT OF INDIA.

## Legislative Assembly Department.

The following Bill\* was introduced in the Legislative Assembly on the 17th April, 1936 :—

## L. A. BILL No. 30 OF 1936.

*A Bill to secure a share for Hindu Widows in their husbands' property.*

WHEREAS it is expedient to secure a share for Hindu widows in their husbands' property ; It is hereby enacted as follows :—

Short title  
and extent.

1. (1) This Act may be called the Hindu Widows' Right of Inheritance Act, 19 .

(2) It extends to the whole of British India, including British Baluchistan and the Sonthal Parganas.

Definition.

2. In this Act, unless there is anything repugnant in the subject or context, " Widow " means the widow (and in case of there being more than one widow all the co-widows) of a man who at the time of his death was governed by Hindu Law.

Widow's right  
to share in  
joint family  
property of  
her husband.

3. Where the husband of a widow was at the time of his death a member of a joint Hindu family, she shall be entitled to such share of the joint family property as her husband would have been entitled to, had a partition taken place in his life time, and may also sue for partition.

This share shall become her absolute property.

Provided that, should a widow adopt a son to her deceased husband, the husband shall, for the purposes of this Act, be deemed to have been at the time of his death a member of the joint Hindu family with the adopted son.

Widow's share  
to be absolute  
property.

4. Where the husband of a widow was not at the time of his death a member of a joint Hindu family, she shall, subject to the right of another widow, take his property absolutely and not merely as a life interest.

Widow's share  
to be exclusive  
of her personal  
property.  
Widow's  
claim to main-  
tenance to  
cease on parti-  
tion.

5. A widow's share under this Act shall be exclusive of her independent personal property and her stridhan.

6. A widow's claim to maintenance from the funds of a joint Hindu family shall cease on the partition and separation of her share as provided in this Act.

\*The Governor General has been pleased to accord the sanction required by section 67(2)(b) of the Government of India Act.

## STATEMENT OF OBJECTS AND REASONS.

The Hindu Law of Inheritance, so far as widows are concerned, is unsatisfactory and unjust, and their position under it is deplorable.

After tracing the growth of widows' rights, Mayne says that Mitakshara arrived at the conclusion that " the widow is entitled to inherit to her husband, if he died separated and not reunited and leaving no male issue, and this rule is now adopted universally except where the authority of Jimuta Vahana prevails", p. 762. He adds " It is therefore equally settled in Bengal that a widow succeeds to her husband's share when he is undivided just as she would to the entire property of one who held as separated." But even in Bengal the widow of a son who predeceases his father undivided inherits nothing.

A widow's right is practically a right to maintenance and no more.

In practice a widow in Hindu society is at the mercy of coparceners. Even though her husband may have amassed the entire wealth of the family and she may, during his life time, have lived a life of affluence and luxury, as soon as he dies, the entire property goes to the surviving male members of the family and she becomes thenceforth only entitled to maintenance, which, as popularly understood, denotes bare means of living.

This rule operated well in olden days when the guiding principle was Dharm-duty, and the principles and ideals underlying the joint Hindu family system were properly understood and fully acted upon by members of the family in a spirit of self-sacrifice and self-effacement. But with the disappearance of those ideals which the joint Hindu family system necessarily demanded, the utter selfishness and callousness now creeping in the society, the non-observances of the principles on which this system was originally based, the gradual and slowly continuing disintegration of the forces of joint family system, and various other causes all due more or less to the acceptance of new ideas of life and conduct and the influence of foreign culture and contact, the Hindu Law of Inheritance has begun to operate against women with a disastrous effect and their lives are becoming difficult and distressful and often miserable ; while the condition of widows has become intolerable and in many cases appalling.

The present Bill proposes to give relief to Hindu widows by giving them a share in family property and making them sole owners of their deceased husband's personal property.

**Resolution on the Triennial Report on the working of the Hospitals and Dispensaries in Bengal for the years 1932, 1933 and 1934.**

CALCUTTA, THE 1ST JUNE 1936.

RESOLUTION—No. 2365Medl.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read—

The Triennial Report on the working of the Hospitals and Dispensaries in Bengal for the years 1932, 1933 and 1934.

**PART I.**

**Calcutta hospital and dispensaries.**

The total number of hospitals and dispensaries remained the same as in the previous triennium, viz., 44. Six of these institutions were exclusively for the treatment of females. Twenty-three hospitals had provision for in-patients, while the rest treated out-patients only. A noteworthy advance in the facilities for indoor accommodation was made during the triennium under review in the hospitals in Calcutta which increased the number of their beds by 221. The largest share of this increase was contributed by the Calcutta Medical School which opened a new building with 100 beds. The Chittaranjan Hospital added 46 beds by opening a Cholera Ward, and providing for more paying beds in the general wards. There was also an addition of 30 beds in the Carmichael Medical College Hospital, and 24 in the Medical College Hospital. Even with this welcome increase, however, the accommodation for in-door patients fell far short of the needs of the city. The practice of providing extra beds in the verandahs and elsewhere in times of emergency continued, but the number of such emergency beds has not been taken into account.

**Attendance and admission.**

The total number of in-door patients treated during these three years was 189,636 as compared to 159,530 in the previous triennium, showing an increase of nearly 19 per cent. As there was an increase of only 5 per cent. in the number of beds, it is obvious that a much greater use of beds was made in this triennium than before. The aggregate number of out-door patients treated during this period was 2,551,819, showing an increase of 514,139 or 25 per cent. over the preceding triennium. This increase may be attributed partly to the growing popularity of the hospitals, but economic depression was undoubtedly also a contributory cause. The Medical College group of hospitals secured, as usual, the highest record of patients in the in-door as well as in the out-door departments.

The system of appointing honorary medical officers in Government hospitals was very considerably expanded during the triennium under review. The Minister cordially endorses the tribute paid by the Surgeon-General to the valuable services rendered by these honorary workers.

**Nursing.**

The nursing services at the Medical College Hospitals and at the Presidency General Hospital were conducted by the Calcutta Hospital Nurses Institution with the aid of a subvention from Government. The finances of the Institution, which depends largely on public benevolence, underwent a serious shrinkage with the result that towards the close of the period under review Government had to help it with an additional grant of Rs. 53,000. Additional revenue was raised by imposing a scale of fees on operations on paying patients in cabins, turrets, cottages and paying wards in the Medical College group of hospitals. This additional revenue was utilised for meeting the extra expenditure on nursing arrangement.

The Bengal Nursing Act, 1934, for the provision of registration of nurses and midwives and securing better training was put into force after the close of the triennium. The problem of nursing in the State institutions in Calcutta was investigated by a committee. The committee's report reveals the fact that except in a few women's hospitals and in

the Presidency General Hospital, nursing arrangements are inadequate and in some cases wholly unsatisfactory. The various proposals made in the report of the committee for the provision of more adequate nursing are under the consideration of Government. The proposals involve the extension of training to Indians, male and female. If Indians of the right type can be attracted to this profession, the problem will not only be solved to a large extent, but there will be considerable economy in the cost of nursing. An all-round improvement in nursing would, however, require considerable outlay, and although Government fully realise the desirability of providing improved nursing facilities, it is feared that the adverse financial conditions of the province may stand in the way of effecting a marked progress in the near future.

#### **Finances.**

The gross income of State, local fund, and aided hospitals in Calcutta during the three years amounted to Rs. 1,04,17,788, showing an increase of Rs. 5,80,537 over the preceding triennium. Contributions from Government accounted for Rs. 51,08,745 or 49·09 per cent. of the total receipts. Of this amount Rs. 3,76,257 was given as grants-in-aid to non-Government institutions, the remainder being spent on the maintenance of the State hospitals. Subscriptions and donations yielded Rs. 10,51,253 against Rs. 5,79,589 in the previous triennium. Municipal contributions amounted to Rs. 13,52,837 as compared to Rs. 11,57,530. There was an encouraging increase in receipts under the heads "Subscriptions and Donations" and "Miscellaneous" which latter includes fees from paying patients and other fees. The increase in donations was largely due to the generosity of Mrs. M. H. Mauger who made a gift of Rs. 3,07,000 to the Eden Hospital, and Rs. 2,73,992 to the Carmichael Medical College Hospital. Although there was a large increase in the municipal contributions over the figures of the preceding triennium, these have shown a tendency to fall gradually in the years under review.

The total cost of maintenance of the Calcutta hospitals, excluding investment, amounted to Rs. 95,27,170, during the period under report—an increase of Rs. 1,22,668 in spite of curtailment of

expenditure and the enforcement of strict economy, especially in the case of the State hospitals.

#### **Pasteur Institute.**

A decentralised scheme for anti-rabic treatment was introduced with effect from 15th December 1933. The Pasteur Institute, hitherto located in the School of Tropical Medicine, was removed to a rented and commodious house in the suburbs suitable for manufacturing and bottling vaccines. The number of centres of treatment opened in hospitals under the control of local bodies stood at 136 at the end of December 1934.

The opening of these local centres have greatly improved facilities for anti-rabic treatment as patients are now able to obtain treatment very near their own homes and are saved the necessity of undergoing long and inconvenient journeys to Calcutta. The system has also led to considerable economy, as well as to increased receipts from the sale of vaccines.

The question of further decentralisation is now under consideration of Government.

### **PART II.**

#### **Mufassal hospitals and dispensaries.**

The number of hospitals and dispensaries outside Calcutta and the town of Howrah at the end of the triennium under review was 1,266, representing an increase of 78 over the number at the end of the previous triennium, exclusive of 65 homeopathic, 11 ayurvedic and 4 unani dispensaries. The accommodation available for in-patients during the triennium rose from 5,751 to 6,000 beds of which 4,458 were for males and 1,542 for females. The above figures are exclusive of the few dispensaries which were temporarily established for special purposes.

The policy of improving facilities for rural medical relief by encouraging the establishment of dispensaries at thana headquarters and villages by means of an annual subsidy of Rs. 500 to each thana and Rs. 250 to each village dispensary was continued during the triennium in spite of financial stringency. The triennium opened with 264 and closed with 305 dispensaries in receipt of these grants.

### Attendance.

The total number of out-door patients treated at permanently established hospitals and dispensaries in the mufassal during the three years under review was 26,800,821 against 24,899,278 in the preceding triennium, representing a net increase of 7·64 per cent. against a net increase of 9·37 per cent. in the previous triennium. The number of in-door patients treated during the corresponding period was 255,305 against 238,946 during the preceding triennium. The increase is reported in some cases to have been due to general unhealthy conditions prevailing during the period while in others it is attributed to the popularity of the hospitals and growing faith in hospital treatment. The general economic depression as well as the provision of a larger number of beds no doubt also contributed to the increase. As before, the Dacca Mitford Hospital treated the largest number of in-patients, the Burdwan Fraser Hospital and the Darjeeling Victoria Hospital respectively following next in order. The number of patients treated at dispensaries following other than the system of Western medicine was 1,462,116 against 1,437,106 during the previous triennium.

### Nursing.

The nursing arrangements in the mufassal hospitals continued to be as unsatisfactory as before. Trained nurses were maintained only in a few hospitals. Elsewhere, nursing was of the primitive type, being entrusted to female attendants, ward servants, compounders, and friends and relatives of patients.

### Finances.

The gross receipts of all institutions outside Calcutta and Howrah amounted to Rs. 80,19,957 as against a total of Rs. 73,66,140 in the preceding three years. Contributions by Government amounted to Rs. 9,94,078 or 12·41 per cent. against 15·74 per cent. in the preceding triennium. The fall in Government contributions was due to general measures of economy and retrenchment necessitated by financial stringency which handicapped Government during the triennium. Municipal and local fund contributions amounted to 60·75 per cent. against 60·09 per cent. and subscriptions and donations accounted for 11·07 per cent.

compared to 11·84 per cent. during the previous three years. Excluding investments, the total expenditure on the three classes of dispensaries during the triennium was Rs. 74,79,917 against Rs. 70,69,970 in the previous triennium.

### Diseases.

(i) *Malaria*.—Malaria continued to account for the largest number of patients treated, viz., 9,123,748 against 7,196,318 during the previous three years.

(ii) *Kala-azar*.—During the period 199,966 patients suffering from kala-azar were treated against 179,202 during the previous triennium. It appears from the medical statistics that there has been a recrudescence of this disease in the latter part of the triennium in some parts of Bengal. The statistics of this and other most important diseases are discussed in the resolution on Public Health in greater detail in reference to the annual mortality figures.

(iii) *Cholera*.—The number of cholera patients treated fell from 31,252 in the preceding triennium to 17,833 during the triennium under report. There has been a steady decrease in the incidence of this disease and this satisfactory result may be attributed to the preventive work of the public health organisation under the guidance of the Public Health Department and to better supply of pure drinking water due to the sinking of a large number of tube-wells and other sources of water-supply.

(iv) *Epidemic dropsy*.—Epidemic dropsy accounted for 15,072 patients as compared with 10,919 during the previous triennium.

(v) *Tuberculosis*.—Tuberculosis of the lungs accounted for 38,672 patients against 34,233 during the preceding triennium. It is regrettable that the figures for the individual years indicate a gradual increase in attendance and admission for tubercular disease of all types. It is feared that the figures would have shown an even larger increase had ampler accommodation for this class of patients existed.

### Medical education.

Medical education up to the standard of the M. B. degree of the Calcutta University and the L. M. F. diploma of the State Medical Faculty was imparted as usual in the two medical colleges, viz.,

the Calcutta Medical College, a State Institution, and the Carmichael Medical College, which is an aided one.

The Surgeon-General has drawn attention to the decline in the average number of passed candidates, which is partly attributed to a stiffening of the standard of examination.

The number of medical schools was the same as at the end of the last triennium, viz., nine. Of these six were Government institutions, two were aided by Government and one was an entirely private school located at Bankura.

The problem of improving the hospital attached to the medical school at Jalpaiguri so as to provide adequate material for clinical training of the medical students engaged the attention of the Minister who convened a conference of Chairmen of the district boards and representatives of the planting community in order to enlist their support and co-operation in a scheme for improving and enlarging the hospital. As a result of the conference the district boards of the Jalpaiguri division have agreed to contribute to the capital cost of the improvement by joining, in proportion to their cess income, in raising a loan of Rs. 1,28,000 and the local tea industry of Jalpaiguri and the Bengal Duars Railway Company have agreed to join with the district boards in meeting the future recurring expenditure of the hospital on condition of all these bodies being duly represented on the managing committee of the hospital.

Since the close of the triennium preliminary arrangements have been completed and structural alterations taken in hand. His Excellency the Governor laid the foundation stone of the new buildings which are progressing rapidly, and it is anticipated that a well-staffed and well-equipped modern hospital associated with the medical school will soon be available at the headquarters of this division. The adoption, in other divisions, of a similar "Divisional Hospital Scheme", for improving the hospitals attached to medical schools is now engaging the attention of Government.

#### **General Remarks.**

The working of the hospitals and dispensaries showed a steady though slow progress during the period under review

and in spite of adverse financial conditions care was taken to maintain the general level of efficiency in the medical administration of the Presidency.

The Minister frankly realises the fact that many improvements are urgently required. In particular, it is realised that the condition of many of the hospitals at headquarters of districts continues to be deplorable, owing to inadequacy of the resources of the local bodies which are charged with their maintenance. The subject of the contribution to these sadar hospitals by local bodies and the improvement of local resources is under the consideration of Government, but much must necessarily depend on an improvement in the general financial situation. In the meantime a survey has been taken up of the urgent needs of these hospitals in regard to buildings, equipment and establishment.

In concluding this review of the working of the hospitals and dispensaries for the last triennial period, the Minister desires to note his gratification at the great stimulus which rural medical relief has received from the Central grant for rural uplift since the close of the triennium. A large proportion of the provincial share of this grant has been earmarked for distribution towards the establishment of union board dispensaries. Under this scheme the whole of the capital cost of a village dispensary, viz., cost of a type plan building amounting to Rs. 1,100 plus cost of equipment estimated at Rs. 500 as well as that of a tubewell where necessary, is being contributed by Government on condition that the recurring expenditure for maintenance is guaranteed from local sources. Allotments, which have been completed on the above basis, are expected to bring into existence 139 additional rural dispensaries in the various districts of the province.

#### **Conclusion.**

**Resolution reviewing the reports on the working of district and local boards during the year 1933-34.**

**GOVERNMENT OF BENGAL.**

**Local Self-Government Department.**

CALCUTTA, THE 1st JUNE 1936.

RESOLUTION No. 4782L.S.-G.

Minister-in-charge: The Hon'ble Sir Bijoy Prasad Singh Roy, Kt.

Read—

The reports of the Commissioners of Divisions on the working of district and local boards in Bengal during the year 1933-34.

1. **District boards.**—The total number of members of the 26 district boards in the Presidency was 694, showing a decrease of two owing to casual vacancies which were not filled up during the year. Of this number 102 were appointed ex-officio, 144 were appointed by name and the rest were elected. The District Magistrate continued to be Chairman of the district boards of Bankura and Midnapore. In all the other boards the Chairmen were elected, except in Darjeeling which remained the only board constituted under the old system with the Deputy Commissioner nominated to the Chair. The number of meetings held during the year was 365 of which two failed for want of quorum and 8 were adjourned.

2. **Local boards.**—The number of local boards was 84 as in the previous year and their total membership increased by 7 from 1,376 to 1,383. The eleven seats in Midnapore left vacant in the preceding year were filled up but four seats in other local boards remained unoccupied. Of the members 83 were ex-officio, 439 were nominated and 861 elected. In all but the three local boards of Darjeeling, the Chair was filled by election from among the members.

Altogether 738 meetings were held. Of these 6 proved abortive for want of a quorum and 21 were adjourned. The

average percentage of attendance was highest (92.0) at Bongaon and lowest (46.1) at Kandi.

Beyond their functions as electoral colleges the local boards with their delegated powers and resources have very little independence, work or responsibility. The grants from district boards earmarked for particular objects have in several instances shown a tendency to grow smaller and in the case of some local boards the money of which they have the spending barely equals the overhead charges of running separate establishments. As a link between the union board and the district board they are of not much consequence.

3. **Union Committees.**—There were 12 union committees in the Presidency as in the previous year. Of these 7 committees were in Midnapore and 5 in the 24-Parganas district. The union committees of Contai and Danton levied a local tax under section 118C of the Local Self-Government Act but the others depended solely on allotments from district boards.

4. **Financial features.**—The progressive increase in the revenues of district boards noticed since the year 1931-32 was maintained during the year under review.

The income of these bodies rose by over 12 lakhs to Rs. 151.8 lakhs. This increase occurred mainly under two heads viz., civil works (Rs. 7.16 lakhs) and local rates (Rs. 3.60 lakhs). The bulk of the increase under the former head was attributable to grants made by Government from the Provincial share in the road account and the motor vehicles tax fund. The enhanced receipts under local rates is accounted for by cess revaluations in some districts and by improved collections in others. An outstanding instance of improvement in collections is furnished by Rangpur (Rs. 1,39,018) brought about by extensive and systematic application of section 99 of the Cess Act.

The total expenditure chargeable to current income rose from Rs. 139.66 lakhs to Rs. 146.09 lakhs. The expenditure under the head "Civil Works" increased from Rs. 50.64 to Rs. 57.90 lakhs and under "Medical" from Rs. 34.66 to Rs. 35.74 lakhs.

The closing balance at the end of the year was Rs. 41.64 lakhs.

5. **Education.**—The income and expenditure under this head amounted to Rs. 21.59 lakhs and 37.22 lakhs against Rs. 21.58 and 37.52 lakhs respectively in the previous year. Twenty-one lakhs of this expenditure were met by Government grants-in-aid. The expenditure on primary education was Rs. 27.98 against Rs. 28.18 lakhs in the preceding year.

The number of upper and lower primary schools maintained and aided by district boards was 52,954 with 1,730,661 pupils of whom 423,925 were girls.

The primary schools in the union board areas in the district of Burdwan continued to be under the management and control of the union boards. All the district boards maintained their free primary schools and several added to the number of such schools. Howrah maintained 7 model primary schools under Mr. Griffith's scheme. The district board of Murshidabad aided a special primary school for Santals and other backward communities.

The Commissioner of Rajshahi Division has brought to the notice of Government the tendency of certain boards to defer payments of the small stipends to the village primary schools whenever there is lack of ready money. As it is, these grants-in-aid are far from lavish and the teachers have to seek other ways of supplementing their income. The Minister cannot too strongly impress on the boards the importance of avoiding defaults in distribution of stipends and grants-in-aid. It is rather unfortunate that comparatively few district boards have as yet elected to participate in the optional scheme sanctioned by Government under which they have agreed to place their existing allotment for primary education at the disposal of the district school boards to be formed under the Bengal Rural Primary Education Act of 1930.

There were 50 technical and industrial schools managed or aided by the district boards imparting education to 1,751 pupils in various subjects, such as agriculture, carpentry, smithy, motor car repairs, earthenware, dyeing and weaving.

Hooghly made a special feature of its night schools, as many as 34 night schools for labouring classes being aided and recognised by the Board.

As usual several district boards gave grants-in-aid to *tols* and *madrassas*. The Chittagong district board devoted special attention to Muhammadan education.

The district board of Bankura paid a contribution of Rs. 2,400 to the Medical School and made grants to two schools for music—one of them being for girls. It also aided an institution for promotion of Ayurvedic education and a school of physical culture. The Deaf and Dumb School at Mymensingh continued to obtain liberal assistance from the district board.

6. **Public health and medical relief.**—The total outlay under the head "Medical" amounted to Rs. 35.44 lakhs, showing an excess of Rs. 1.08 lakhs over the expenditure of the preceding year. The main increase was under "Sanitation and vaccination" which accounted for Rs. 19.37 lakhs as against Rs. 17.27 lakhs in 1932-33.

The total number of dispensaries maintained or aided by the district boards including a number of homeopathic and a few ayurvedic dispensaries rose by 19 to 1,029—an average of one dispensary for every 67 square miles of area and for every 45,000 of the population.

Six hundred and thirty-four dispensaries were maintained by district boards at an average cost of Rs. 1,785 per dispensary and 395 institutions were aided at an average cost of Rs. 894 per dispensary. The total cost of maintenance varied from Rs. 2,249 in Jalpaiguri to Rs. 685 in Faridpur.

Annual subsidies were granted as usual by Government to thana and village dispensaries which satisfied the conditions attached to the grant and it is satisfactory to note that these grants-in-aid have been effective in promoting the establishment of at least one dispensary in every thana.

In several districts neighbouring union boards are pooling their resources and starting local dispensaries in increasing numbers. This is a move in the right direction and while district boards should encourage these institutions with suitable grants it should generally be left to the union boards to manage and finance them. This would enable the district boards to pay greater attention to preventive work and to contribute in a larger measure towards the maintenance of a well-equipped and

well-staffed hospital at district headquarters and thereby to improve the standard of medical relief.

A scheme was launched during the year for having a first class modern hospital at Jalpaiguri, the headquarters of Rajshahi Division, by improving the hospital at that place attached to the Jackson Medical School and thereby also securing the continued existence of the school which had been threatened with disaffiliation by the State Medical Faculty for inadequacy of hospital arrangements. The scheme involves financial support to the hospital on the part of the district boards in the division and also of the tea and other interests concerned.

The installation of an X-ray apparatus in the Sadar hospital at Rangpur deserves special mention.

During the year under review Government initiated the decentralised scheme of anti-rabic treatment. Improved methods have made it safe to bottle anti-rabic vaccine and to send it down to districts to be administered by local practitioners without much special training. Under this scheme local bodies who control the hospitals are made responsible for the treatment. They are charged Rs. 5 per treatment *plus* postage and are entitled to recover up to Rs. 10 from all paying patients, all indigent patients being treated free of charge. It is satisfactory to note that the local authorities were, on the whole, found keen and willing in taking up the work.

*Public health.*—The public health activities of the district boards consisted as usual in combating the outbreaks of epidemic diseases by preventive and curative measures. The education of public opinion in villages in the general principles of sanitation and hygiene by lantern lectures and other demonstrations formed an important feature in the activities of the health staff of almost all the boards.

Apart from malaria and kala-azar the principal diseases which are liable to appear in epidemic form are cholera and smallpox. Prompt and adequate action is reported to have been taken against cholera and smallpox by means of anti-cholera inoculations, by enforcing vaccination and revaccination and by the adoption of other sanitary measures including propaganda. Unfortunately in spite of the above means these two diseases broke out in epidemic

form in several districts and were attended with considerable loss of human life.

The problem of malaria in the rural areas forming the most serious cause of mortality and debility still remains largely unsolved. But the efforts of the local bodies in this direction so far as they go deserve praise. These consisted mainly of the usual methods of—

- (1) filling up of dobas and cleansing of tanks.
- (2) re-excavation and clearance of silted up drains and khals,
- (3) jungle cutting,
- (4) kerosinization of stagnant pools, and
- (5) prophylactic quininisation.

Many co-operative anti-malaria societies and health associations assisted and did good work in combating the diseases.

The experiment to control malaria by the use of plasmochin and quinine under the supervision of the Public Health Department in Memari thana of Burdwan district was continued during the year and resulted in considerable success.

The Nabaganga-Mathabhanga scheme initiated by the district board of Nadia in co-operation with the Jessore district board was completed during the year and flood water entered the cut with good results.

The Commissioner of the Burdwan Division reports that the experiment in flushing certain areas in the Midnapore district was followed by a decrease in the incidence of malaria.

The scourge of kala-azar was also fought by an extensive provision of treatment in dispensaries and by the opening of treatment centres in affected areas.

Outdoor treatment of leprosy received special attention in several districts, and notably in Bankura, Midnapore and Burdwan.

*Public health organization scheme.*—Five hundred and seventy-five thana health units have now been set up throughout the province (except in some backward and undeveloped tracts) under the rural public health organization scheme which was inaugurated in

August 1927, and for which Government now make a total annual contribution of about Rs. 11 lakhs to district boards. These health units, though necessarily inadequate and providing merely a skeleton health organization in rural areas, have proved to be of immense benefit in combating epidemics of cholera and smallpox and have achieved considerable success in rousing the sanitary conscience of the rural public. The Minister has, however, reason to think that the efficiency of this rural health staff could be greatly improved in many districts by a closer control and supervision on the part of the District Health Officers.

Government cinema parties are reported to have done useful work in respect of health propaganda. A scheme of propaganda on health and rural reconstruction with the help of cinema outfits was inaugurated by the four union board associations of the district of Rangpur. A cinema outfit with some films was purchased for each subdivision and propaganda on health, sanitation, agriculture and allied subjects was carried on from village to village. The district board made a total grant of Rs. 1,000 which was distributed equally between the four union board associations. The results of the experiment are reported to have been very satisfactory and the Minister desires to commend this useful form of propaganda with the help of cinema outfits to other district boards.

Prevention of adulteration of food-stuffs continued to receive attention. The work of the district health staff generally compares favourably with that done in rural municipalities in this direction. The number of prosecutions show an increase and punishments were more adequate than in the preceding year. An appreciable check is claimed to have been exercised on the sale of adulterated food, particularly in the Chittagong Division.

**7. Veterinary.**—Progress in veterinary development received a setback owing to the financial difficulties of the past few years. The veterinary receipts decreased from Rs. 2,446 to Rs. 2,181 and the charges under this head fell slightly from Rs. 1,82,679 to Rs. 1,79,418.

Three new veterinary hospitals were opened at Jiagunge in Murshidabad, at

Sariakandi in Bogra, and at Siliguri in Darjeeling, respectively.

The hospital at Siliguri was brought into existence through the efforts of Darjeeling Himalayan Society for Prevention of Cruelty to Animals acting in co-operation with the district board. Stud bulls were maintained by most district boards. The district boards of Rajshahi and Malda purchased young stud bulls through the agency of the Live Stock Officer at Rajshahi and these were distributed in consultation with him to various places according to the needs of the respective localities.

Propaganda work in the direction of animal husbandry was done by the local staff by means of magic lantern lectures in melas, fairs and public health exhibitions. The Government cinema parties also helped in this direction.

Cattle epidemics were reported only from Pabna and Khulna. These were, however, quickly brought under control.

**8. Civil Works.**—The income under this head rose from Rs. 15,68,884 to Rs. 22,85,331. The increase was shared by all the divisions and was principally due to allotments from the provincial share in the Road Account and the Motor Vehicles Tax Fund. The aggregate expenditure under the head amounted to Rs. 57,89,817 against Rs. 50,64,027 in the preceding year, representing about 35 per cent. of the total expenditure of the boards, so that the downward trend in expenditure appears to have been checked. The increase was shared by all the divisions and occurred chiefly under the sub-heads "Buildings," "Communications," and "Water-supply (original)". The total expenditure on "Communications" was Rs. 35.50 lakhs against Rs. 29.76 lakhs in the preceding year. The increase is welcome although it is offset by the fact that the rise in expenditure was mainly owing to subventions from the Central Road Fund and the proceeds of the Motor Vehicles Tax. In course of disbursement of the latter grant, it came prominently to notice that in respect of a large number of district boards the bulk of the loss of receipts was counter-balanced by diversion from this head and cuts were freely made from the provision for communications whenever money was wanted for other purposes.

The increase of expenditure amounting to Rs. 2.41 lakhs in the Dacca Division was due principally to expenditure

against contributions from the Road Fund on the reconstruction of Dacca-Narayanganj and Mymensingh-Tangail Roads.

In the Presidency Division the district board of 24-Parganas was responsible for the increase of expenditure, having spent Rs. 2·57 lakhs on repairs of roads compared with Rs. 1·74 lakhs in 1932-33. Khulna, at the other end, reduced its expenditure largely owing to loss in cess income resulting from a reduction of the rate.

All districts in the Burdwan Division with the exception of Bankura showed an increase in expenditure on this head, Howrah, with an increase of over half a lakh, heading the list.

All the three districts in the Chittagong Division were able to add to their expenditure. In the Rajshahi Division, while two districts, viz., Rangpur and Dinajpur showed small decreases over the preceding year's expenditure, the rest contributed to the net increase.

The Jalpaiguri district board completed two fairly large bridges, one over the Karatoa and the other over the Neora river and the project of raising and shingling the Madarihata-Falakata Road nearly reached completion. The bridge over the Tangon river at Thakurgaon in Dinajpur was completed during the year.

The provision for the maintenance of roads works out generally at an unsatisfactory low average. The district boards would do well to avoid new commitments in the shape of original communications unless and until they can pay adequate attention to keeping the existing roads in repair.

It is desirable in the interests of ordered development of communications that all district boards should draw up a 5 years' programme which should be worked up to as finances permit. The Minister trusts that advice to the above effect given by Government from time to time for the last 20 years will be attended to by the boards.

**9. Water-supply.**—The total expenditure on water-supply rose from Rs. 5,51,924 in 1932-33 to Rs. 5,96,753. Commendable activity was shown by many district boards and their local boards in increasing the sources of water-supply in the rural areas, mainly in the shape of tube-wells and masonry wells.

At the head of the list is Bogra, which sank 385 tube-wells during the year and brought the total number of tube-wells sunk during the last 3 years in the district to 794.

The three local boards of Midnapore (excepting Jhargram) sank 269 tube-wells during the year. The introduction of tube-wells in Contai is reported to have brought about a marked reduction in epidemics of cholera.

The Burdwan district board excavated one tank, 92 tube-wells and 46 masonry wells.

In Hooghly the problem of water-supply for drinking purposes is said to have been solved to an appreciable extent. The tube-well scheme has succeeded in this district and it is reported that there is now hardly any village without at least one tube-well.

Howrah met the bulk of expenditure on construction and reconditioning of tube-wells from a loan taken from Government for this purpose.

Several district boards were alive to the necessity of arrangements for the proper maintenance of these tube-wells.

In the district of 24-Parganas a staff consisting of one inspector, one mechanic and six mistries were maintained to look after the tube-wells.

The Bogra district board maintained a staff of six tube-well mechanics for repairs of its existing tube-wells. Each of these mechanics was in charge of two police stations. Khulna employed an inspector of tube-wells.

Murshidabad completed 80 tube-wells, the district board of Khulna sank 81 tube-wells and Faridpur sank 79 during the year. The district board of Tippera reconstructed 27 tube-wells which had fallen into disuse.

The district board of Dacca maintained the waterworks of Munshiganj at a total cost of Rs. 3,406 and paid the usual annual subsidy of Rs. 500 towards the maintenance of the Manikganj waterworks. Tippera contributed Rs. 2,000 to the Brahmanbaria municipality for water-supply.

The whole question of devising ways and means for conservation of tube-wells is under examination by Government.

Other kinds of sources of water-supply especially in districts and areas where tube-wells were not considered suitable received the attention of the district

boards. Tanks were excavated or repaired in many districts. In others masonry and concrete wells as well as pottery wells were sunk in fairly large numbers.

Bakarganj added only two new tanks to its number of reserve tanks while excavation of 4 others was taken up. The board has at present 370 reserve tanks under its direct control excluding 102 tanks in the Colonisation and Khasmahal areas towards which it had made contributions.

Government make fairly large annual grants-in-aid of definite schemes for improvement in water-supply in rural areas. It is desirable that there should be co-operation between Government and the district boards regarding the distribution of their respective grants in order that the allotments may be spent to the best advantage and the danger of overlapping may be avoided. To secure this end it appears to be necessary to maintain proper records of all sources of water-supply.

The problem of water-supply in rural Bengal is a vast one and in spite of the best efforts of Government and the local bodies it will take several years to solve the problem if it is tackled on a definite and systematic programme.

It was with that object in view that Government laid down in 1929 a policy of granting loans to district boards on extremely advantageous terms for comprehensive rural water-supply schemes. Very few boards have, however, thought fit so far to take advantage of the loan policy although Government have pressed it upon the notice of district boards from time to time. The Minister desires once again to remind the district boards of the loan scheme and urges them to come forward with comprehensive programmes. There should be no hesitation now that the fall in the income of the district boards has been definitely checked.

**General remarks.**—The revision of the Bengal Local Self-Government Act III of 1885 which was overdue was made by the amending Bengal Acts XXIV of 1932 and III of 1933. It may be useful to give a brief summary of the important changes made in the law governing the district and local boards.

The members of district and local boards were required to begin their office with an oath of allegiance to the Crown

and provision was made for the appointment of a second Vice-Chairman and an Executive Officer in order to ensure better supervision of the activities of the district boards.

A statutory Public Health Committee of the district board was brought into existence and the district boards were enabled to undertake all measures, consistently with their finances, for ensuring the public health of the districts. They were empowered to require private owners to cleanse or drain unwholesome tanks, pools and premises. Provision was made in the amending Act for compelling owners of *melas* and fairs to take out licenses and to comply with conditions regarding sanitary control.

Powers of the district board were extended in the matter of making grants-in-aid to schools and libraries. Corrupt practices in regard to elections were defined and penalised.

With a view to increasing the income of the district boards provision was made for crediting to the District Fund all fines realised within their areas under the Bengal Vaccination Act, 1919, and power was taken for licensing private *hats*, markets, fairs and *melas*. District boards were empowered to make grants-in-aid towards works and measures for improving agriculture and provision was made for authorising district boards to undertake the maintenance of arterial communications which, while passing through municipal areas, essentially serve the interests of the district as a whole. Power was also taken by passing the Local Self-Government (Amendment) Act III of 1933 to secure representation of a minority community on the district board, by declaring, where necessary, a particular community as a minority community and by reserving seats for it on both local and district boards.

Comments have been made in appropriate places on the drawbacks and defects which came to notice as well as the commendable features of administration of the various boards. Although cases of irregularities have not been absent and the reports of auditors showed many instances of defective control and lack of supervision, Government consider that the actual working of the boards has on the whole been satisfactory and that they have, generally speaking, emerged fairly well out of the trying time of depression. It is regretted that audit and inspection notes

and especially the former, are not always given prompt and sufficient consideration and steps to remove serious shortcomings brought to notice are not readily taken.

Several of the Commissioners in their review have referred particularly to the unwillingness of district board to "face facts", and to pay due attention, in budgeting, to the cautious husbanding of their resources with a view to their utilisation to the best advantage and on essential matters. The general financial crisis brought to a head the difficulties attending on incurring of commitments without proper scrutiny. It is to be hoped that the local authorities have now gained experience which will be of great use to them in future.

Another common defect to which all Commissioners have drawn notice is the absence of sufficient financial assistance by the district boards to the union boards. With some exceptions, the district boards have transgressed against the repeated instructions of Government that a substantial share of the augmentation grant should be distributed among the union boards. Government trust that in future district boards will recognise their definite responsibility in assisting the development of these rural units of self-government.

Party faction was not prominent and the district boards kept themselves generally free from politics. The relations between the executives of the boards and the local officers of Government were generally marked by close co-operation.
